

Do You Know the Answers?

Each term the Science Department will run a
'Big Science Question Competition'

To Enter...

- Answers must be 500 words or less and contain supporting diagrams and references (List your sources of information).
- Answers should be handed in to your science teacher
- All questions will have a Chemistry theme this term
- All entries to be submitted by Friday 20th March
- Please indicate your name and form so winners can be identified and contacted

The Questions...

YEAR 9 - How will cars be powered in the future and why?

YEAR 10 - What are the uses of nanotechnology and are there any ethical / moral issues with their use?

YEAR 11 - Why aren't we using more biofuels? Include your own views in your report.

Sixth Form - How did Avogadro's ideas about how to calculate the masses of particles become a theory we still use today?

Prizes and Rewards...

- All entrants will earn one credit point
- 4 runners up will receive a 'front of the queue' lunch pass for 1 week
- The overall winner will receive a 'front of the queue' lunch pass for 1 week ... AND... AN ECHO DOT

GOOD LUCK
