

TOYOTA

MANUFACTURING UK

2021 Apprenticeships

Production Apprenticeship

This is an exciting 12 month training period, where you will develop the practical skills and theory to become a member of our production team, working on our fast paced Corolla line.

You will learn how to carry out production processes safely, efficiently and to outstanding quality.

You will work towards a level 2 diploma in manufacturing.

Maintenance Apprenticeship

A maintenance member develops and maintains equipment so our production team can produce the Corolla to perfect standards every time.

Through the 44 month programme, you will develop the technical skills and theory required to become a competent member of our maintenance team.

Skills you will learn include welding, machining, hand tool use, robotics and electronics.

You will work towards level 3 maintenance qualifications.

Open Days

Come to our Burnaston site to meet some of our team, and experience where you could be training and working! We will be on hand to answer any questions you may have. Booking is essential.
