Hearing Aid Recycling

Recycling spectacles & hearing aids is a long established Lions Club International project. "Recycle For Sight" is aimed at improving the sight & hearing of people in countries around the globe.

Please support this cause by bringing to school any old **spectacles, hearing aids or mobile phones** (but don't forget to delete any data).

Sixth form students can drop items into the Lions recycling bin outside Mrs Walton's office. Lower school students can drop items to main school office.

In Uttoxeter, the Lions started recycling in October 2014 & so far have recycled 5000 pairs of spectacles. The UK annually dispatches over 300,000 pairs and globally this figure rises to around 1 million pairs.

Please get involved and support this amazing project!
