Official development assistance: _____

Voluntary aid: _____

Annotate the image of the Dorset coastline with the landforms.

Examples: South Cambridgeshire and the Outer Hebrides

South Cambridgeshire background: _____

Outer Hebrides background: _____

Categorise the statements into social and economic effects. Then identify if they relate to rural population decline or rural population growth.

Rising house prices reflect the greater demand.	Loss of community when the village has a high number of commuters.	The out-migration of the young has left an increasingly ageing population.	Lack of affordable housing for the local people.
Resentment may be felt towards the migrants in the community.	Few children due to less young people could result in school closures.	Public transport is reduced as commuters have cars.	Traditional fishing for prawns and lobsters has declined with a few boats left.
An ageing population will require increasing amounts of care-having social and economic impacts.	Commuters may use shops where they work- village shops may have to close.	Tourism has become an important economic activity- but the infrastructure cannot cope.	Sale of agricultural land can cause a reduction in farm employment.
